

# Home Pack Battery Storage Lithium Phosphate

Enjoy Many Hours of Electricity with  
**SECURE SUPPLIES** New Storage Devices

## Secure Supplies has 3 Phase Power System

We added Battery Packs to our **H2 Solutions** in 2019 to allow gas to be made from water in **advance** of starting up Heat to Power Systems, Engines and Gas Turbines, which allows for full **normal** Fuel Rail Pressurization made **ON DEMAND**.

We have designed the system initially to have ability to auto start fuel gas production from water to pressurize fuel rails ahead of time using the Main Board Matric Gas Controls ahead of engine starting to ensure enough gas ready.

We have charge controllers built in invertors for 50Hz or 60Hz built in and **high-quality** construction.

We have made these units ready to plug in EPG units, Solar or grid, for looping.

We modified and offer 3 Size and include 1 in 3 phase spec suitable to run 100kW engine water fuel start up.

### STORE RENEWABLE ENERGY

- Solar PV
- Solar Thermal
- Wind
- Hydro
- Geothermal
- Biogas
- Natural Gas

### SOLID STATE POWER BACKUP

### DESIGNED FOR 2020 & BEYOND

# MEGA PACK Lithium kW Battery Storage

## Battery Power Gas Security

Suitable to Power-UP GMS Gas Management Unit and Auto Start Voltrolysis Fuel on Demand Systems of sizes 10 lpm to 200 lpm @ 6 bar.

### SOLID STATE 50
